

Annex to Bristol Green Capital Partnership's, 'Our Future: A Vision for an Environmentally Sustainable Bristol', Jan 2019

Below is a mapping of the 25 actions in the report to relevant targets within the 17 UN Sustainable Development Goals. For more information on Bristol and the SDGs, see [here](#) or email sdgs@bristolgreencapital.org.

	Energy	Food	Nature	Resources	Transport
Headline goal	Bristol's energy system is zero carbon by 2050	Everyone has access to healthy, ethical and sustainably produced food by 2050	Everyone has access to a healthy natural environment by 2050	Bristol will be a circular city by 2050	Everyone in Bristol can travel sustainably every day by 2050
Action point 1	25% of electricity consumed in the city generated from renewables sited within the city by 2030	75% of food produced from within the City region is distributed locally by 2025	Double the abundance of wildlife by 2050	Zero residual household waste by 2050	Bristol will achieve World Health Association (WHO) guidelines for air quality by 2030
	7.1 By 2030, ensure universal access to affordable, reliable and modern energy services 7.2 By 2030, increase substantially the share of renewable energy in the global energy mix	2.4 By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality 12.3 By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses 12.7 Promote public procurement practices that are sustainable, in accordance with national policies and priorities	6.5 By 2030, implement integrated water resources management at all levels. 15.1 By 2020, ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, in particular forests, wetlands, mountains and drylands 15.5 Take urgent and significant action to reduce the degradation of natural habitats, halt the loss of biodiversity and, by 2020, protect and prevent the extinction of threatened species 15.9 By 2020, integrate ecosystem and biodiversity values into national and local planning, development processes, poverty reduction strategies and accounts	6.3 By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally 12.3 By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses 12.5 By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse 14.1 By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities, including marine debris and nutrient pollution	3.9 By 2030, substantially reduce the number of deaths and illnesses from hazardous chemicals and air, water and soil pollution and contamination 11.6 By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management

	Energy	Food	Nature	Resources	Transport
					
Headline goal	Bristol's energy system is zero carbon by 2050	Everyone has access to healthy, ethical and sustainably produced food by 2050	Everyone has access to a healthy natural environment by 2050	Bristol will be a circular city by 2050	Everyone in Bristol can travel sustainably every day by 2050
Action point 2	Make every existing building energy efficient by 2030	The majority of food businesses achieve an accredited Good Food Standard by 2025	Doubling of tree canopy cover by 2050	Establishment of a 'zero waste zone' by 2025	Ensure all transport is zero carbon at the point of use by 2030
	<p>7.1 By 2030, ensure universal access to affordable, reliable and modern energy services</p> <p>7.2 By 2030, increase substantially the share of renewable energy in the global energy mix</p> <p>7.3 By 2030, double the global rate of improvement in energy efficiency</p> <p>9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes</p>	<p>2.4 By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality</p> <p>12.3 By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses</p>	<p>15.2 By 2020, promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally</p>	<p>12.3 By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses</p> <p>12.5 By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse</p> <p>14.1 By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities, including marine debris and nutrient pollution</p>	<p>9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes</p> <p>11.2 By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons</p>

	Energy	Food	Nature	Resources	Transport
					
Headline goal	Bristol's energy system is zero carbon by 2050	Everyone has access to healthy, ethical and sustainably produced food by 2050	Everyone has access to a healthy natural environment by 2050	Bristol will be a circular city by 2050	Everyone in Bristol can travel sustainably every day by 2050
Action point 3	All heat from zero carbon sources by 2040 to meet a significantly reduced demand	Every ward in Bristol is using all available council-owned land for community food growing activities by 2030	Everyone has access to excellent quality green space within a 10-minute walk from their home by 2036	10% of Bristol businesses commit to a Circular Economy Plan by 2025	40% of all journeys are made by active modes by 2040
	7.2 By 2030, increase substantially the share of renewable energy in the global energy mix 7.3 By 2030, double the global rate of improvement in energy efficiency	2.4 By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality 12.7 Promote public procurement practices that are sustainable, in accordance with national policies and priorities	11.7 By 2030, provide universal access to safe, inclusive and accessible, green and public spaces, in particular for women and children, older persons and persons with disabilities	8.4 Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation 12.5 By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse 12.6 Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle	11.2 By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons

	Energy	Food	Nature	Resources	Transport
					
Headline goal	Bristol's energy system is zero carbon by 2050	Everyone has access to healthy, ethical and sustainably produced food by 2050	Everyone has access to a healthy natural environment by 2050	Bristol will be a circular city by 2050	Everyone in Bristol can travel sustainably every day by 2050
Action point 4	All new developments to be net carbon negative and smart-energy-enabled from 2020 onwards	Every child can have at least one nourishing good food meal every day by 2025	All new developments achieve high standards of design for wildlife, water and well-being by 2036	Household water consumption will fall by 10% by 2045	20% of all journeys will be made on public transport by 2040
	<p>7.1 By 2030, ensure universal access to affordable, reliable and modern energy services</p> <p>7.2 By 2030, increase substantially the share of renewable energy in the global energy mix</p> <p>11.1 By 2030, ensure access for all to adequate, safe and affordable housing and basic services and upgrade slums</p> <p>12.6 Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle</p>	<p>2.1 By 2030, end hunger and ensure access by all people, in particular the poor and people in vulnerable situations, including infants, to safe, nutritious and sufficient food all year round</p> <p>2.2 By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons</p>	<p>6.6 By 2020, protect and restore water-related ecosystems, including mountains, forests, wetlands, rivers, aquifers and lakes</p> <p>12.6 Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle</p>	<p>6.4 By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable water management</p> <p>6.5 By 2030, implement integrated water resources management at all levels, including through transboundary cooperation as appropriate</p>	<p>11.2 By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons</p>

	Energy	Food	Nature	Resources	Transport
					
Headline goal	Bristol's energy system is zero carbon by 2050	Everyone has access to healthy, ethical and sustainably produced food by 2050	Everyone has access to a healthy natural environment by 2050	Bristol will be a circular city by 2050	Everyone in Bristol can travel sustainably every day by 2050
Action point 5	By 2028 nobody suffers a cold home	There is no avoidable food waste and all non-avoidable food waste is recycled or re-used by 2050	Bristol's larger employers (100+ employees) use natural capital accounting and are net positive in their impacts by 2030	By 2030 all streets in Bristol will be free of litter	All new developments are assessed against a connectivity model by 2020
	7.1 By 2030, ensure universal access to affordable, reliable and modern energy services 11.1 By 2030, ensure access for all to adequate, safe and affordable housing and basic services and upgrade slums	12.3 By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses	12.6 Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle	12.5 By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse	11.2 By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons 11.a Support positive economic, social and environmental links between urban, peri-urban and rural areas
